— PERFORMANCE

Built for demanding surfaces.

Confirm the exact grade, test reports, warranty, subframe, and installation details for your project before ordering.

WEATHER AND UV RESISTANT

Skip to main content for exterior exposure while helping finishes retain their appearance.

FIRE-RETARDANT OPTIONS

Fire-retardant grades may be specified where a project requires them; confirm the selected panel certification.

MOISTURE RESISTANT

Compact exterior panels are suited to rain and humid conditions when detailed and installed correctly.

TERMITE RESISTANT

The compact laminate construction does not provide the same food source as natural timber.

IMPACT RESISTANT

Dense panel construction supports demanding facade and high-contact applications.

ABRASION RESISTANT

Durable decorative surfaces help withstand routine handling and cleaning.

EASY TO CLEAN

Many marks can be removed with water, mild soap, and a soft cloth.

CLIMATIC STABILITY

Exterior grades are engineered for changing temperature and weather conditions.

LOW MAINTENANCE

Pre-finished panels do not require routine painting, staining, or sealing.

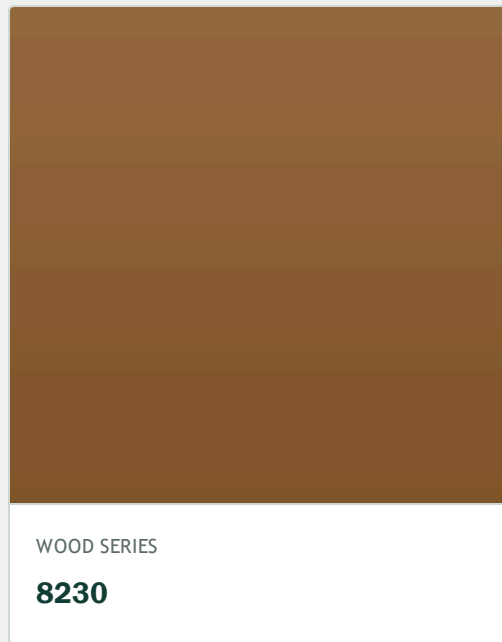

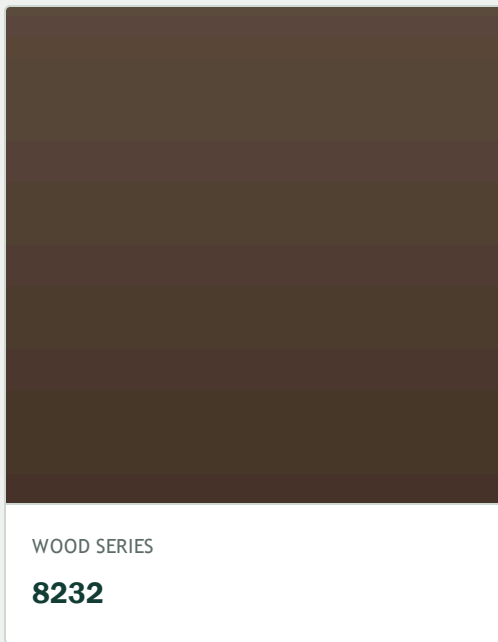

— FINISH LIBRARY

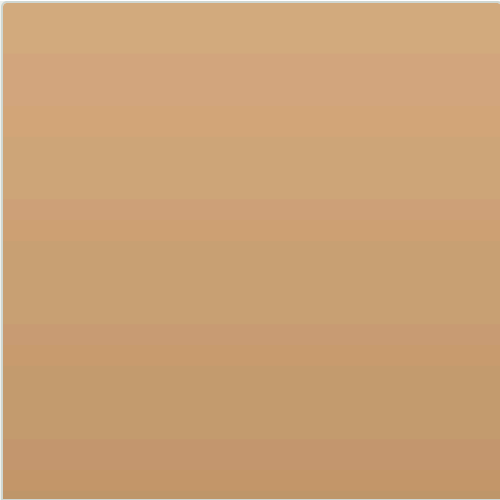

Choose by collection code.

Screen colors are indicative. Request a physical sample before making a final finish decision.

Wood Series 7 FINISHES

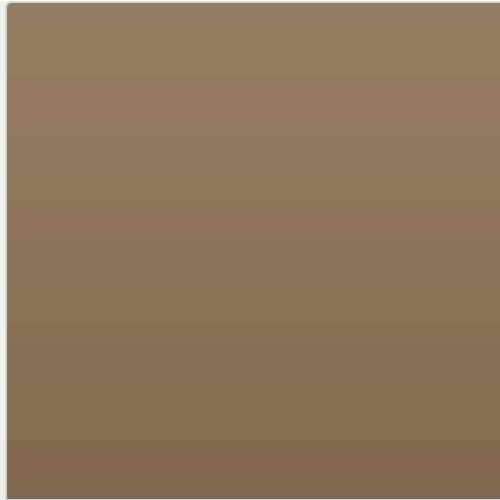

Warm brown and timber-inspired tones for facades, soffits, gates, and feature surfaces.
